C3L Recruiter

Centre for Change and Complexity in Learning (C3L)

University of South Australia

Adelaide, 5000

Dear C3L Recruiter or to whom concern about this,

As a student in the Data Science field, I am excited and privileged to have found this opportunity of being a data analyst in a meaningful industry and a passionate organization. As a continuous follower of the science and analytics field, my experience and qualifications align with the practical and technical skills that you seek. My achievements in subjects that develop communication, data analysis and visualization abilities constitute my capabilities in the field. I am certain that I have what you need and would become a beneficial extension to the company.

I fell in love with the whole process of gathering and interpreting data from variety of sources to help the organization improve the outcome and elevate the user experience. I'd love to automate internal and external reports, creating executive-level dashboards, and presenting information to help executives and others understand the operational impact of the data.

I would be thrilled to work at a meaningful organization like yours where my work would be highly beneficial to the organization. Please refer to my attached resume for additional information regarding my proficiencies and achievements. I'm a positive that I am the best fit for this job and would love to have an interview to follow up on my background and expertise. Given an opportunity, I can assure you that I would be a loyal and valuable employee over weeks to come.

Thank you for taking the time to review my resume. I look forward to talking with you.

Sincerely,

Anh Huy Vo
